- A. It is in the best interest of the city that a wide range of **PLANNED** housing accommodations, **PLANNED COMMERCIAL AND BUSINESS DEVELOPMENTS, MIXED USE DEVELOPMENTS**, and industrial development be encouraged to meet the needs of the City and to accomplish sound physical and economic planning. Planned ~~development~~ districts, (~~hereinafter "PDD"~~), encouraging the best possible design of buildings and site planning under a comprehensive plan of development provide for more efficient use of land and the provision of public services.
- B. Planned developments provide opportunities for alternative densities, lot sizes and other bulk regulations and often necessitate the special design and development of public streets and utilities. It is in the best interest of the City, therefore, that these planned **developments DISTRICTS** be approved by the City Council in accordance with specific plans to assure that the community will benefit from the proposed development with a minimum impact on existing development.
- C. ~~The following~~ Planned ~~development~~ districts are therefore set forth in the text of this Chapter, with specific boundaries to be established on the Official Zoning Map\* after approval by the City Council of a preliminary development plan. These districts are "floating districts" and under Maryland case law are analogous to special exceptions. Criteria for establishment of these districts are set forth in the purpose for each district and shall be the basis for approval or denial by the City Council without the necessity of showing a mistake in the original zoning or a change in the neighborhood. (Prior code Section 150-135)

Editor's Note: The zoning map is on file in the Office of Planning and Zoning.

**17.108.040 Submission of outline development plan.**

- A. An applicant may submit for provisional approval by the Planning Commission an outline development plan as an optional step in the application process for the purpose of obtaining assurance that the project is acceptable in principle before significant expense is incurred by the developer.
